Cross Sectional Shape:

Square

Temperature Rating:

-40.0 degrees fahrenheit and 500.0 degrees fahrenheit

Length:

12.000 inches

Cross-sectional Height:

0.375 inches

Cross-sectional Width:

0.375 inches

End Application:

Virginia class submarine, ssn-774; trim and drain pump

Product Name:

Superpack 104 bumblebee packing

Special Features:

Plastic aramid (kevlar textit) and tfe/graphite composite yarn material

Material:

Graphite and plastic, polytetrafluoroethylene and plastic

Material:

Plastic polytetrafluoroethylene and plastic

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
