End Application:

F-16 aircraft

Product Name:

Seal, environmental-lantern pylon rh

Special Features:

Width 4.940 x length 8.380; wedge shaped cross-section; elongated center hole

Material:

Rubber

Material Specification:

Per lockheed material specification +5071-2-12 mfr ref single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A032a0
