Cross Sectional Shape:

Cup

Cross-sectional Height:

Between 0.710 inches and 0.770 inches

Center Hole Diameter:

Between 4.626 inches and 4.641 inches

Peripheral Diameter:

Between 2.234 inches and 2.259 inches

End Application:

Valve check lft 5.00ips 900psi btwld stl

Angle:

65.0 degrees

Product Name:

Graphitic pressure bonnet seal ring

Special Features:

Item contains stainless steel caps

Material:

Graphite

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
