End Application:

738592 (53711) fwd propulsion sect assembly

Product Name:

(inavy)tape

Special Features:

Operating temperature: -30 to 425 degrees fahrenheit, with spikes to 500 degrees; water absorption: less than 1%; color: brown/black; cold flexibility: -30 degrees fahrenheit, 90 degrees bend; paintable

Material:

Fiber

Material:

Fiber

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A26800
