Cross Sectional Shape:

U top ring

Inside Diameter:

1.625 inches

Outside Diameter:

2.250 inches

Intermediate Ring Quantity:

5

End Application:

Barrel assembly, internal auxillary launcher

Product Name:

Molythane v-ring packing assembly

Special Features:

5 intermediate v ring packings with male and female adapters

Height:

Between 1.0315 inches and 1.1565 inches

Material:

Disulfide molybdenum and rubber polyurethane

Material Specification:

Parker hannifin 4615 (molythane) mfr ref single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
