**Cross Sectional Shape:**

U top ring

**Inside Diameter:**

1.625 inches

**Outside Diameter:**

2.250 inches

**Intermediate Ring Quantity:**

5

**End Application:**

Barrel assembly, internal auxillary launcher

**Product Name:**

Molythane v-ring packing assembly

**Special Features:**

5 intermediate v ring packings with male and female adapters

**Height:**

Between 1.0315 inches and 1.1565 inches

**Material:**

Disulfide molybdenum and rubber polyurethane

**Material Specification:**

Parker hannifin 4615 (molythane) mfr ref single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A032a0
