Cross-sectional Height:

0.500 inches

Cross-sectional Width:

0.810 inches

End Application:

Cut-to-length series 0631 freeman marine gasket

Hardness Rating:

25.0 shore durometer a

Special Features:

One side of the width has 45 degree angled corners and 2 cone shaped grooves

Material:

Rubber chloroprene class cr

Reference Data And Literature:

Freeman marine series 0631-xxxx gaskets catalog page 1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:
