Cross Sectional Shape:

Rectangular

Nonmetallic Hardness Rating:

50.0 shore durometer a

Tempurature Rating:

-40.0 degrees fahrenheit and 158.0 degrees fahrenheit

Length:

50.000 feet

Cross-sectional Height:

0.500 inches

Cross-sectional Width:

0.125 inches

Product Name:

Neoprene 1/8 in. Thick, 1/2 in. Wide soft adhesive-backed strip

Special Features:

Adhesive backed on one side

Material:

Rubber, synthetic, chloroprene type, ams 3207

Material:

Rubber chloroprene class cr

Material Specification:

Chloroprene type, ams 3207 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A26800
