Outside Diameter:

1.024 inches

Overall Height:

0.100 inches

End Application:

G09hem

Criticality Code Justification:

Feat

Product Name:

A nonmetallic material manufactured in various cross sectional shapes, impregnated with electrically conductive particles designed to provide environmental sealing and electromagnetic interference shielding to electrical and electronic equipment

Special Features:

Nonmetallic material in various cross sectional shapes, impregnated with electrically conductive particles designed to provide environmental sealing and electromagnetic interference shielding to electrical and electronic equipment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
