Accommodated Shaft Diameter:

2.250 inches

End Application:

Titanium gate valve

Housing Bore Diameter:

2.625 inches

Construction:

One-piece

Product Name:

Omniseal 400a radial seal, style 247 (flanged heel)

Special Features:

Cross sectional height .334-.344 inches

Material:

Nickel alloy spring

Material Specification:

Hastelloy c276 mfr ref single material response spring

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A032a0
