Cross Sectional Shape:

Rectangular

Nonmetallic Hardness Rating:

45.0 shore durometer a

Length:

8.000 feet

Cross-sectional Height:

0.750 inches

Cross-sectional Width:

0.0625 inches

End Application:

Control station assembly

Material:

Rubber, butadiene styrene, astm d2000

Material:

Rubber, butadiene styrene, astm d2000

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A26800
