Hardness Rating:

90.0 shore durometer a

Special Features:

Thk 0.116 in; inside diameter 1.355 in; op temp m65/p180 degrees c; 1500 psi tensile strength; not recommended for strong acids, aromatic fuels, polar solvents, ozone, glycols

Material:

Rubber butadiene nitrile

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
