Rubber Strip - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5330-01-590-3770

Cross Sectional Shape:
Rectangular
Nonmetallic Hardness Rating:
70.0 shore durometer a
Min. Tensile Strength (psi):
4 pounds per square inch
Length:
6.480 inches
Cross-sectional Height:
0.200 inches
Cross-sectional Width:
0.380 inches
Product Name:
Plug
Special Features:
Material is per federal specification zz-r-765 cl 2b gr 70; one one end item is 0.88 wide and 0.41 long then it is 0.38 wide the remainder of
the length
Material:
Rubber, ams 3304
Material:
Rubber silicone class q
Material Specification:
Ams 3304 assn standard single material response
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A26800
A26800
