**Construction:**

One-piece

**Hardness Rating:**

45.0 rockwell a and 55.0 rockwell a

**Product Name:**

Extruded door, seal elastomer

**Special Features:**

Item is 29 inches long; 1.9375 wide; 0.5625 high at the highest point; has two tear drop shaped bubbles one on each side that are 0.781 wide, that are attached to the based at the outside edge but not in the center; tensile strength 1800 psi min; elongation 400 percent min; t.O. 35d3-11-52-4 figure 2-11 index 73

**Color:**

Black

**Material:**

Rubber ethylene-propylene-diene class epdm

**Material Specification:**

Ams 3260a assn standard single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A032a0
