Seal Width:

Between 22.125 inches and 24.125 inches

End Application:

Ddg-1000 class propulsion line shaft bearing assembly

Construction:

Split

Product Name:

Oil seal, split with spring

Special Features:

1.00 inch thick x 22.125 id x 24.125 od

Material:

Rubber synthetic

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
