End Application:

C-17a aircraft

Construction:

One-piece

Special Features:

Item is made from a 0.50 x 2 x 19 piece of material; it is cut at an angle on both ends; it has 13 holes 0.128 -0.134 in diameter along the same center line, equally spaced along the length of the item. Next higher assembly 17p2a5977-1 fairing assembly aft fairing

Material:

Aluminum alloy 7075 or aluminum alloy 7072

Material Specification:

Qq-a-250/13, temp t6 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
