**Product Name:**

Hybrid gasket

**Special Features:**

Temp range: <10ppm @ he, -200 degrees (c) cryogenic air, +500 degrees (c) in regular atmosphere, +650 degrees (c) in steam, +1000 degrees (c) reducing or inert media. Pressure range: full vacuum to +5000 psi, seating stress: 2900 psi (20 mpa), seating stress: 23, 200 psi (160 mpa). Minimal sealing element web width: 0.670 inches. M & y values: m=2.85, y=2900psi.

**Material:**

Steel comp 305

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A032a0
