Overall Length:

17.500 inches

Bolt Circle Diameter:

0.250 inches

Overall Height:

0.032 inches

Cross-sectional Thickness:

0.032 inches

Cross-sectional Height:

0.032 inches

End Application:

Integrated family of test equipment (ifte)

Product Name:

Gasket, landline

Special Features:

Two apertures: one 5.220 width x 10.000 length inch and one 9.520 width x 10.000 length inch

Material:

Silicone

Material Specification:

Mil-dtl-83528, type b, silver plated aluminum filled silicone military standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0

Mil-std (military Standard):

Mil-dtl-83528 spec.
