Seal Width:

2.580 inches

End Application:

E-3 aircraft

Construction:

One-piece

Product Name:

Seal, bottom pan, electronic racks, assembly of

Special Features:

Seal length is 12.000 inches and is fabricated inside royalite tray butting ends together at the 9 o'clock position as you face it, and has a 0.110 to 0.150 inch diameter hole running through center

Material:

Rubber and rubber silicone class q

Material Specification:

Astm 10568 c41 assn standard single material response and ams 3332 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0
