Fabrication Method:

Solid

Overall Length:

54.0 millimeters

Overall Width:

4.5 millimeters

End Application:

F/a-18 e/f

Hardness Rating:

19.0 shore durometer d

Product Name:

Gasket, sealing-long

Special Features:

Gasket is fungus resistant per mil-hdbk-454 guideline 4; gasket has 50n/100mm peel adhesion for a total thickness of 1.63mm max; gasket has two half circle style notches in the top on one end and a 45deg angle cut 18.5mm long on the opposite end in the bottom so that the width tapers from 4.5mm to 4mm; see drawing for additional information

Material:

Plastic polyurethane

Material Specification:

Polyurethane foam closed cell per ams3568 national specification single material response

Style Designator:

Rectangular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A032a0
