Cross Sectional Shape:

Concave face, double scraper, ventilated oil control

Inside Diameter:

220.0 millimeters

Outside Diameter:

340.0 millimeters

Overall Width:

20.4 millimeters

End Application:

Highline winch

Product Name:

Nilos metallic seal for bearing 32 044 x

Special Features:

Ring for single row taper roller bearings (din 720)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A08400
