Cross Sectional Shape:

O-ring

Cross Section Inside Diameter:

0.878 inches

Product Name:

Hydraulic and pneumatic retainers

Special Features:

For use in glands mil-g-5514, gland design, packing, hydraulic and as4716

Material:

Plastic polytetrafluoroethylene

Material Specification:

Mil-g-5514 military specification 1st material response and mil-r-8791 military specification 2nd material response retainer

Surface Treatment:

Plastic polytetrafluoroethylene retainer

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0

Mil-std (military Standard):

Mil-g-5514 spec.
