Ocean Continued Observe
Cross Sectional Shape:
O-ring
Cross Section Inside Diameter:
0.878 inches
Product Name:
Hydraulic and pneumatic retainers
Special Features:
For use in glands mil-g-5514, gland design, packing, hydraulic and as4716
Material:
Plastic polytetrafluoroethylene
Material Specification:
Mil-g-5514 military specification 1st material response and mil-r-8791 military specification 2nd material response retainer
Surface Treatment:
Plastic polytetrafluoroethylene retainer
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A032a0
Mil-std (military Standard):
Mil-g-5514 spec.
