Cross Sectional Shape:

Plain rectangular, straight face

Inside Diameter:

Between 2.97 inches and 3.03 inches

Outside Diameter:

Between 3.47 inches and 3.53 inches

Ring Style:

Concentric

Outer Edge Thickness:

Between 0.249 inches and 0.253 inches

End Application:

2320-01-595-3994

Product Name:

Wiper, rod

Special Features:

Material molythane

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A08400
