Cross Sectional Shape:

Plain rectangular, straight face

Inside Diameter:

Between 1.97 inches and 2.03 inches

Outside Diameter:

Between 2.47 inches and 2.53 inches

Ring Style:

Concentric

Outer Edge Thickness:

Between 0.249 inches and 0.253 inches

End Application:

2320-01-595-3994

Product Name:

Wiper, rod

Special Features:

Material molythane

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A08400
