Construction:

One-piece

Product Name:

Upper seal assembly

Special Features:

Upper seal assembly has upper brush, upper gasket, upper track; use on mk46 mod3; no finish; measure in millimeters

Material Specification:

Mil-std-130 military standard 1st material response and mil-std-100g military standard 2nd material response

Specification Or Standard:

0.462 weight and 11.800 thickness

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A032a0

Mil-std (military Standard):

Mil-std-130 spec.
