Cross Sectional Shape:

Rectangular

Nonmetallic Hardness Rating:

50.0 astm scale

Min. Tensile Strength (psi):

50 pounds per square inch

Temperature Rating:

-40.0 degrees fahrenheit and 200.0 degrees fahrenheit

Length:

Between 12.2 inches and 13.2 inches

Surface Condition:

Smooth both sides

Cross-sectional Height:

3.0 millimeters

Cross-sectional Width:

Between 9.0 inches and 10.0 inches

End Application:

2320-01-565-3428

Product Name:

Seal, closed cell

Special Features:

Applicable standards/specifications: asme y14.100-2004, asme y14.5-2009. Material: neoprene sponge, close cell, astm d1056, 2c1, black.

Color:

Black both sides

Material:

Rubber chloroprene class cr and adhesive

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
