Rubber Strip - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5330-01-631-3529

Cross Sectional Shape:
Rectangular
Nonmetallic Hardness Rating:
50.0 astm scale
Min. Tensile Strength (psi):
50 pounds per square inch
Tempurature Rating:
-40.0 degrees fahrenheit and 200.0 degrees fahrenheit
Length:
Between 12.2 inches and 13.2 inches
Surface Condition:
Smooth both sides
Cross-sectional Height:
3.0 millimeters
Cross-sectional Width:
Between 9.0 inches and 10.0 inches
End Application:
2320-01-565-3428
Product Name:
Seal, closed cell
Special Features:
Applicable standards/specifications: asme y14.100-2004, asme y14.5-2009. Material: neoprene sponge, close cell, astm d1056, 2c1,
black.
Color:
Black both sides
Material:
Rubber chloroprene class cr and adhesive
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A26800
