**Cross Sectional Shape:**

Rectangular

**Nonmetallic Hardness Rating:**

50.0 astm scale

**Min. Tensile Strength (psi):**

50 pounds per square inch

**Tempurature Rating:**

-40.0 degrees fahrenheit and 200.0 degrees fahrenheit

**Length:**

Between 12.2 inches and 13.2 inches

**Surface Condition:**

Smooth both sides

**Cross-sectional Height:**

3.0 millimeters

**Cross-sectional Width:**

Between 9.0 inches and 10.0 inches

**End Application:**

2320-01-565-3428

**Product Name:**

Seal, closed cell

**Special Features:**

Applicable standards/specifications: asme y14.100-2004, asme y14.5-2009. Material: neoprene sponge, close cell, astm d1056, 2c1, black.

**Color:**

Black both sides

**Material:**

Rubber chloroprene class cr and adhesive

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A26800
