Cross Sectional Shape:

Emi

Center To Center Distance:

0.640 inches

Cross-sectional Thickness:

0.040 inches

Gage Thickness:

0.040 inches

Angle:

30.0 degrees

Product Name:

Gasket, emi and weather seal

Special Features:

K-shaped; material is conductive fluorosilicone elastomer per hms-17-1283

Material:

Rubber

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A032a0
