Center Hole Diameter:
Between 0.329 inches and 0.330 inches
Construction:
Two-piece
Product Name:
Ring seal assembly, act
Special Features:
Piston zero back-up gland width; designed to promote lubrication and reduce friction; used for landing gear dynamic seals and actuator
subsytems
Material:
Rubber butadiene-acrylonitrile class nbr core
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A032a0
