Center Hole Diameter:

Between 0.329 inches and 0.330 inches

Construction:

Two-piece

Product Name:

Ring seal assembly, act

Special Features:

Piston zero back-up gland width; designed to promote lubrication and reduce friction; used for landing gear dynamic seals and actuator subsystems

Material:

Rubber butadiene-acrylonitrile class nbr core

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A032a0
