Cross Sectional Shape:

Square

Nonmetallic Hardness Rating:

8.0 shore durometer a

Min. Tensile Strength (psi):

40 pounds per square inch

Temperature Rating:

-40.0 degrees fahrenheit and 250.0 degrees fahrenheit

Length:

196.00 inches

Surface Condition:

Smooth both sides

Cross-sectional Height:

0.250 inches

Cross-sectional Width:

0.250 inches

End Application:

Fca-22, type iii

Product Name:

Gasket

Special Features:

3m 9482pc adhesive transfer tape applied to one side of rogers corporation poron part number 4701-40-15250-04 by fabricator secon rubber and plastics

Material:

Plastic polyurethane

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A26800
