Cross Sectional Shape:

Rectangular

Overall Length:

138.600 inches

Cross-sectional Height:

0.775 inches

Cross-sectional Width:

0.620 inches

End Application:

Kc-46a tanker

Features Provided:

Fabric reinforced

Product Name:

Seal

Material:

Rubber silicone class q core

Material Specification:

D-2000 mfr ref single material response jacket

Style Designator:

Strip

Reference Number Differentiating Characteristics:

Item is faa certified

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A032a0
