Cross-sectional Height:

Between 0.067 inches and 0.073 inches

Center Hole Diameter:

Between 0.484 inches and 0.494 inches

Special Features:

As differentiated by material in accordance with ships parts control center activity hx quality control, manufacturing and testing specifications

Material:

Rubber synthetic

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510x0
