Between 1.995 inches and 2.045 inches

**Cross-sectional Height:** 

Between 0.205 inches and 0.215 inches

Center Hole Diameter:

Between 1.590 inches and 1.610 inches

## **End Application:**

W/s: aircraft, galaxy c-5; spruance class dd (963); support equipment, b-1 aircraft; systems, jp-5 aviation fuels; support equipment, mx peacekeeper missile; ticonderoga class cg (47); helicopter, mh-53e; aircraft, b-2 bomber (atb); cvn 68 class reactor fill auxiliary system; helicopter, hh-53h pave low

Material:

Rubber butadiene-acrylonitrile class nbr

Shelf Life:

N/a

**Unit Of Measure:** 

Demilitarization:

No

Fiig:

A510x0
