Cross-sectional Height:

Between 0.986 inches and 1.012 inches

Center Hole Diameter:

Between 0.986 inches and 1.012 inches

Special Features:

Between cross sectional shape style is d36 special; peripheral diameter is 1.354inches and 1.386 inches

Material:

Rubber butadiene-acrylonitrile class nbr

Material Specification:

Ams 7260 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A510x0
