Cross-sectional Height:

Between 0.028 inches and 0.034 inches

Center Hole Diameter:

Between 0.396 inches and 0.416 inches

Material:

Rubber butadiene-acrylonitrile class nbr

Reference Number Differentiating Characteristics:

magnetic permeability of 1.010 in a 20 oersted field

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510x0
