Cross-sectional Height:

Between 0.100 inches and 0.106 inches

Center Hole Diameter:

Between 0.918 inches and 0.930 inches

Criticality Code Justification:

Zzzy

Special Features:

Material will be in accordance with ships parts control center activity hx quality control, manufacturing and testing specifications

Material:

Rubber synthetic

Reference Number Differentiating Characteristics:

Material will be in accordance with ships parts control center activity hx quality control, manufacturing and testing specifications

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510x0
