The Chimic at https://doi.org/1001/101/10001 00 100 1012
Cross-sectional Height:
Between 0.100 inches and 0.106 inches
Center Hole Diameter:
Between 0.918 inches and 0.930 inches
Criticality Code Justification:
Zzzy
Special Features:
Material will be in accordance with ships parts control center activity hx quality control, manufacturing and testing specifications
Material:
Rubber synthetic
Reference Number Differentiating Characteristics:
Material will be in accordance with ships parts control center activity hx quality control, manufacturing and testing specifications
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
File:
