**Cross-sectional Height:**

Between 0.134 inches and 0.144 inches

**Center Hole Diameter:**

Between 0.854 inches and 0.864 inches

**Material:**

Rubber synthetic

**Reference Number Differentiating Characteristics:**

Material will be in accordance with ships parts control center activity hx quality control, manufacturing and testing specifications

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A510x0
