Cross-sectional Height:

Between 0.134 inches and 0.144 inches

Center Hole Diameter:

Between 0.854 inches and 0.864 inches

Material:

Rubber synthetic

Reference Number Differentiating Characteristics:

Material will be in accordance with ships parts control center activity hx quality control, manufacturing and testing specifications

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510x0
