Tempurature Rating:

350.0 degrees fahrenheit

Cross-sectional Height:

0.188 inches

Center Hole Diameter:

3.500 inches

Material:

Rubber chloroprene class cr

Reference Number Differentiating Characteristics:

Material will be in accordance with ships parts control center activity hx quality control, manufacturing and testing specifications

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510x0
