**Tempurature Rating:**

350.0 degrees fahrenheit

**Cross-sectional Height:**

0.188 inches

**Center Hole Diameter:**

3.500 inches

**Material:**

Rubber chloroprene class cr

**Reference Number Differentiating Characteristics:**

Material will be in accordance with ships parts control center activity hx quality control, manufacturing and testing specifications

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A510x0
