Cross-sectional Height:

Between 0.100 inches and 0.106 inches

Center Hole Diameter:

Between 0.981 inches and 0.993 inches

End Application:

Propeller, aircraft, variable pitch

Material:

Rubber

Material Specification:

Hs163, united aircraft corporation mfr ref single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A510x0
