### Tempurature Rating: -65.0 degrees fahrenheit and 350.0 degrees fahrenheit

Cross-sectional Height:

Between 0.067 inches and 0.073 inches

### Center Hole Diameter:

Between 0.096 inches and 0.106 inches

### **Elongation Percentage:**

125

#### Product Name:

Packing, preformed, fluorosiicone

### **Special Features:**

Static seal used while in contact with fuels such as jp-3

Color:

## Blue

Material:

### Rubber fluorosilicone class fq

### Shelf Life:

### N/a

Unit Of Measure:

---

### Demilitarization:

No

### Fiig:

A510x0
