Center Hole Diameter:  0.250 inches  Criticality Code Justification: Feat  Special Features: As differentiated by material which must conform to ships parts control center special quality control provisions and certified free mercury contamination zzzy  Material: Rubber butadiene-acrylonitrile class nbr  Test Data Document:  81349-mil-p-23199 specification (includes engineering type bulletins, brochures, etc., that reflect specification type data in speciformat; excludes commercial catalogs, industry directories, and similar trade publications, reflecting general type data on certaenvironmental and performance requirements and test conditions that are shown as "typical", "average", "", etc.).  Shelf Life:	rom
