Tempurature Rating:
275.0 degrees fahrenheit
Cross-sectional Height:
0.094 inches
Center Hole Diameter:
0.625 inches
Criticality Code Justification:
Zzzw
Departure From Cited Document:
Material will be in accordance with ships parts control center activity hx quality control, manufacturing and testing specifications
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A510x0
