| Tempurature Rating:                                      |
| -40.0 degrees fahrenheit and 500.0 degrees fahrenheit    |
| Cross-sectional Height:                                  |
| Between 0.042 inches and 0.048 inches                    |
| Center Hole Diameter:                                    |
| Between 0.902 inches and 0.920 inches                    |
| End Application:   |
| Unified fuel control f-15/f-16                           |
| Hardness Rating:   |
| 75.0 shore durometer a                                   |
| Criticality Code Justification:                          |
| Abjh   |
| Special Features:  |
| For use in hydrocarbon fuels containing 30 pct aromatics |
| Material:  |
| Rubber fluorocarbon class fpm                            |
| Material Specification:                                  |
| Es-1494 per cage 06848 mfr ref single material response  |
| Shelf Life:  |
