Cross-sectional Height:

Between 0.100 inches and 0.106 inches

Center Hole Diameter:

Between 1.591 inches and 1.633 inches

End Application:

Pacer dawn

Special Features:

Operate and seal at -40 degrees f to 400 degrees f in contact with synthetic lubricants such as mil-l-7808 and mil-l-23699

Material:

Plastic fluorocarbon

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A510x0
